In 1962 the money expended through appropriation was spent for police equipment for the protection of the town constituents as well as the town officers. The liabilities of the town and its citizens have been decreased through its procurement of police equipment purchases made in 1962.

It is recommended that consideration be given to increase the appropriation for police protection in 1963.

Consideration should be given to the purchase of a new radio to replace the present one now in operation which is seventeen years old and cannot be feasibly converted to the

narrow band status which will be required in accordance with Federal Communications Commission as of July, 1963. On this date our present radio will become obsolete and no longer of service to the Police Department.

Respectfully submitted,

CURTIS A. CLEARY

Auditors

Report of the Superintendent of Schools

To the School Board of East Kingston:

It is a pleasure to submit my fifteenth annual report as Superintendent of Union No. 16.

There was one change and one addition in the teaching staff for this year. Mrs. Nellie Brooks replaced Mrs. Albertine Williams as teacher of Grades 5 and 6 at Brown's Academy. Mrs. Virginia Holder was elected as the additional school nurse for the Supervisory Union.

The staff for 1962-1963 follows:

Mrs. Margaret Tilton, Principal of Brown's Academy and teacher of Grades 3-4

Mrs. Blanche Loch, Grades 1-2

Mrs. Nellie Brooks, Grades 5-6

Mrs. Eleanor Henry, Music

Miss Mary Shea, Head School Nurse

Miss Gemma Jean, Assistant School Nurse

Mrs. Virginia Holder, Assistant School Nurse

This is a dedicated and experienced staff of teachers who are working diligently to provide good training for the boys and girls of this town.

The tuition rates for 1963-1964 as announced by the Exeter School Board after approval by the State Board of Education are as follows:

\$475 for Senior High students — the same rate as for this year.

\$405 for Junior High students which is an increase of \$30.

These rates are based on the estimated per pupil costs for 1962-1963 plus the 2% rental charge of \$22.17.

The additional school nurse has made it possible to give the usual health examinations and also to provide a health education program as well. One of the nurses spends a certain amount of time per week in each school in addition to being on call at all times in case of an emergency. A health committee consisting of a representative from each

school district in the Supervisory Union was formed last spring and it meets regularly with the nurses to advise them and to determine needed policies for the school health program. We now have one of the better programs in the state.

A part of this report is devoted to a statement by Mr. Frederick King, Teacher Consultant for Supervisory Union No. 16, who replaced Mr. Donald Elsemore last August. He outlines some of the work which he is doing in his role as supervisor of elementary education. He reports as follows:

It has been my pleasure to begin work this school year in the area as teacher consultant. I have found the first few months very interesting and I feel also a sense of belonging in the way teachers have accepted me as one of the "educational family."

Probably the chief concern of the teacher consultant is instructional improvement. Education has many demands placed upon it. The modern space age and educational research have constantly produced proposed changes on what we teach and how we teach it. There must always be a continued evaluation of what we can use of the new, and what is worth keeping of the old. We never can stand still. Education, like any other profession, is constantly looking for better ways to achieve more as we work with the girls and boys of this area.

A program of instructional improvement is only as good as those involved. Any program's worth can be measured by the desire of each worker to bring to the job the best he has to offer. I have found excellent cooperation from all the teachers as we examine what we are doing, and look ahead to what we need to change.

My role this first semester has been chiefly one of getting acquainted with the schools and their staffs. I have tried to make frequent visits to the

classrooms in order to view the teaching process and to familiarize myself with teachers and pupils. By careful analysis of what is happening in the classroom, ideas for working with teachers can be gathered.

Other techniques that I have used include the individual conference. The conference is an exchange of thinking regarding the many phases of teaching children. I would hope that these conferences would help in encouraging the teacher toward future professional growth and in reaching for continued improvement of teaching skills.

Group meetings have been held. I feel teachers should have a share in the responsibility for building philosophy and establishing the instructional program of the school. In these meetings we talk over local school problems and exchange ideas toward their solution.

Each month I have released a bulletin. These are usually two pages long and give concrete ideas that the teacher may use in her classroom. I also try to include suggestions on free and inexpensive materials that are available for classroom use.

The teaching demonstration by the consultant of new methods and materials has also been utilized. This method focuses attention upon one special skill in an actual classroom situation. The teacher observes this, and later we can exchange views on its value.

These, then, are some of the ways I have used as consultant and teacher work together in the important task of helping children learn. Throughout this report three words stand out: growth, improvement and achievement. These are verbal symbols used to express what I am trying to do as I seek to do service for and with the teachers of this area.

The School Board has approved the introduction of the Rinehart Functional Handwriting System to the school program for next year. Some of the objectives of this system are o (1) Develop a writing consciousness; (2) Teach letter details to a point of mastery; (3) Recognize and develop handwriting concomitants such as neatness, accuracy and attention to details, and (4) Permit reasonable individuality in writing style.

This system has been used in the other districts of our Supervisory Union with very satisfactory results.

The Parent-Teacher Association continues its interest in the school program as evidenced by the sponsoring of a school milk program.

I call your attention to the reports and tables which follow.

I express my appreciation to the citizens, the members of the School Board and the teachers for their continued support and cooperation.

Respectfully submitted,

RAYMOND A. HOYT

School Health Report

To the Superintendent of Schools:

Although there is much to be done in school health services, some accomplishments can be reported.

With the coming of the third nurse on a school union basis, we have been able to set a day and time to visit each school. More time has been made available to set up procedures for remedial handicaps, such as vision and hearing problems, more home visits made, more time available for teacher conferences.

Another accomplishment has been in the field of health education. Wherever routine work has been completed, such as in hearing and vision tests, we were able to follow on with a program of talks, film strips, movies, demonstration of health and safety topics. This has been met with approval of teachers, pupils and parents. There is much to be done in this field but at least a start has been made.

The needs still unmet in health services are:

1. Dental programs for low income groups.
2. Child Guidance Clinics.

Although the above services are needed the one that affects the school as well as the individual child and his family the most is the emotionally disturbed child. The numbers that fall into this group are increasing at an alarming rate. Some areas have found it necessary to start their own services for these children either in the schools or in their communities. We in Union No. 16 are in as great a need as any other area. The help we can get is scattered and wholly inadequate. Yet the child with an emotion problem can be quite distracting to the whole school as well as his or her own classroom.

There is a glimmer of hope, at present still far over the horizon, that some day we in Union No. 16 can obtain such services through a contemplated family service agency or by buying services from neighboring areas where such services are in the process of being formed.

We feel convinced that a full school year of nursing services with a staff of three will bring increased benefits to the individual school as well as the Union as a whole.

We extend our thanks to all — the parents, teachers, organizations, that have helped us in carrying out school health services during the past year.

Respectfully submitted,

Report of the Music Supervisor

To the Superintendent of Schools:

During the year 1962 the school pupils had the opportunity of participating in a variety of musical experiences. These experiences included use of rhythm band instruments, the playing of tonettes and the auto-harp, music appreciation through records, participation in various rhythms, folk dancing and square dancing, singing in unison and in parts and learning the fundamentals of music.

It is hoped that these musical experiences will stimulate each pupil's interest in music.

In the spring a musical program was given at the Town Hall. Mrs. Lock's pupils presented "The Gingerbread Boy", and Mrs. Tilton's pupils presented "Animal Capers."

Christmas programs were given in both Mrs. Tilton's room and Mrs. Brook's room. Some of the parents attended these programs.

Thanks are due the East Kingston School Board for purchasing an auto-harp for the school. This instrument is being greatly enjoyed.

In closing, I wish to thank Mr. Hoyt, Mr. King, the members of the School Board, the P. T. A., the teachers and the parents for their cooperation.

Respectfully submitted,

Report of Supervisory Union No. 16 Class

To the Superintendent of Schools:

Supervisory Union No. 16 has a current enrollment of 10 boys and 4 girls ranging in chronological age from nine plus to fourteen plus. The academics have a grade achievement from first into low sixth.

This year much effort is being placed on channeling the children into programs with peer groups through educational TV, lectures, grade entertainments, physical education, etc.

Boy Scout Troop No. 323 is very active, continuing under the able guidance of Dr. Frederick Pitchforth who comes each Thursday afternoon.

The entire class is benefitting by the lessons in weaving given by Mrs. Howard Swain. From these lessons have come talks and demonstrations by the class to other students throughout the school.

Folk dancing with Mrs. Jean Tufts, an ever popular recreation, has proven its social and physical value and has become a part of the weekly schedule.

Extras plus the daily routines have shown the Union Class to be good contributors as well as excellent participants in the total school population.
